

Access Audit

What is an Access Audit?

At Animikii Theatre we recognise that people have differing access needs, that these may change over time, and that we have a role to play in removing barriers to access.

Barriers could be physical, socio-economic, communication methods etc, and by knowing your individual access needs the aim is to create and maintain a working environment that works for everyone, and that enables everyone to do their best work.

If you would like to let us know about any access needs or requirements you may have, please use this form to tell us about it. If you would prefer this form in an alternative format, please let us know.

Any information you give is strictly confidential, and will be used to ensure your specific needs are met.
